## Career Objective

As a dedicated and result-oriented programmer with a desire to learn new technologies, I am seeking a job opportunity that will allow me to properly utilize my problem-solving skills while also leveraging the organization's aims and ambitions.

## Technical Skills

- **Programming Languages** :
  Proficient with C, C++, JavaScript. Also familiar with Java
- **Problem-solving :**
  Solved 500+ problems on Codeforces,LeetCode,AtCoder & UVA.
  **Web technologies:**
  HTML5,CSS3,Bootstrap,JavaScript, Express.js,Node.js, React.
- **Programming concepts:**
  OOP & Functional Programming
- **DBMS :** MySQL & MongoDB.
- **Version control :** Git, GitHub.

## Training & Experiences

- **CodSoft Web Development (Intern) -2024**
  It was a month-long virtual internship program where I developed both dynamic and static websites, including a portfolio, landing page, and calculator. I learned a lot during this experience.

- **Mentorship Program -2023**
  Working on Full-Stack Mern projects under the supervision of **Md. Arif Haider** (Senior Software Engineer, Binate Solution)

- **Industrial Training -2023**
  I worked on a Full stack web development program with HTML,CSS, Node.js, PostgreSQL. Under the supervision of **Abir Bin Ayub Khan** (Senior Software Engineer, Liberate Labs Bangladesh)

- **Jr. Software Developer (Intern) -2022**
  In my 6$^{th}$ semester, I started my web development course with **Stamasoft Technologies**. It was a wonderful experience working here. I learned many things about product development, R&D & SDLC.

## Education

- **International Islamic University Chittagong**
  B.Sc. in Computer Science and Engineering
  Session: 2019-Present
  Current CGPA: **3.51/4.00**

- **Cox's Bazar Govt. College**
  HSC(science)- Completion Year: 2018
  GPA: **4.25/5.00**

- **Cox's Bazar Govt. High School**
  SSC(science)- Completion Year: 2015
  GPA: **5.00/5.00**

## Projects

- **BaySquare Hotel Website(HTML,CSS,JavaScript)**
  **GitHub link**
- **Personal Portfolio(HTML,CSS,JavaScript)**
  **GitHub link**
- **Quiz App (Full-stack MERN)**
  **GitHub link**
- **Budget Tracker Demo (Full-stack MERN)**
  **GitHub link**
- **Iphone Calculator(HTML,CSS,JavaScript)**
  **GitHub link**
- **Personal Blog Website (Full-stack MERN)**
  **GitHub link**

## Area of interest

- Software Development, Algorithm Design.
- Machine Learning, Computer Vision.
- Full Stack (MERN) web Development.
